## EDUCATION

LC101 Programming Course — June, 2023 - **LaunchCode**

Masters in Computer Applications 2007 - **Bharathidasan University, India.**

## PROJECT EXPERIENCE

### LC101 — Graded Assignments

- Developed code using JavaScript, HTML, CSS to design / style web pages and interaction.
  - Rocket Launch Checklist form
  - Orbit Report
- Developing code using Core Java, Spring Boot, Spring MVC and Thymeleaf frameworks to build a Job Portal

## WORK EXPERIENCE

### Patient Care Representative — BJC healthcare, Creve Coeur MO

September 2022 - Present

- I register the patients who come for a visit for Pre Surgery and Labs and assist them.
- Verifying the insurance and clearing up the Work Queues and attending the calls in a daily status meeting.
- **Software used:** EPIC

### Patient Care Coordinator — Eyecare Partners, Chesterfield, MO

November 2021 - September 2022

- Front office – welcoming patients, verifying records (insurance) and entering the patient's data from the welcome sheet. Pretesting the patient by explaining the procedures for the appointment.
- Verifying patients' insurance information by contacting insurance providers and getting preauthorization for the patients' appointments for the frames and contact lens materials.
- Taking 30+ calls daily from the patients who seek appointments, patients enquiring about billing queries, ordering the contacts lens, obtaining the medical record to be faxed and emailed.
- Scheduling an appointment setup for the patient who needs to be seen by the retinal specialist or ophthalmologist.
- Preparing the flow sheets for the next 3 consecutive days appointments.
- Scanning the required documents that should be updated in patient

## SKILLS

### PROGRAMMING LANGUAGES

- Java
- JavaScript
- HTML5/CSS3

### FRAMEWORKS

- Spring MVC
- Thymeleaf
- Angular
- Spring Boot

### DATABASES

- MySQL (Ongoing)

### TOOLS

## AWARDS

Not yet, but soon :)

## Volunteering

- St.Louis FoodBank
- Local Schools

## Interests

- Practicing Hackerrank.

records daily..

- Assisting doctors like sending the documents to concerned persons in interoffice as well as other healthcare providers.

## **Office Intern** — Syspro Automation, Chennai, India

March 2005 - March 2006

- Involved in various internal office clerical tasks such as receiving external calls from customers & connecting to the right person.
- Worked with the accounting department and did the cost sheets, ordering the office supply, and managed the checks and deposits to concerned vendors.
- Involved in filing the official letters, documentations. Using Microsoft Excel technology created reports & reusable macros and shared the tools within the department to use & reduce time / cost involved.
- Worked as a liaison between different departments like ordering and communicating the needs.
